

AL SALEM LIGHTING CO.

INDOOR LIGHTING

	Fixture Type	Advantages	Lighting Fixture	DESCRIPTION
1	AVFB	Sealsafe IP66/67. Body self extinguishing glass fiber reinforced polyester. Hinged polycarbonate diffuser.		Explosion Proof The AVFB, a surface fluorescent lighting luminaire for lamps up to 18W or 36W
2	EVH	Sealsafe IP65. Housing and cover copper-free (less than 0.05%) aluminum alloy. Heat resistant moulded glass.		Down Light The EVH, a hazardous Locations lighting luminaire for lamps up to 400W
3	RA26	Sealsafe IP44. Aluminum ring, Reflector made of high quality aluminium, surface is anodic electrochemical, with pure aluminum of 99.9%		Down Light The EVH, a hazardous Locations lighting luminaire for lamps 13W, 18W & 26W
4	250T	Sealsafe IP66 . Housing & ring injection molded in thermoplastic with fiber glass reinforcement. Opal polycarbonate injection molded diffuser.		Plafoniere The RECESSED FLUORESCENT, lighting luminaire for lamps up to 11W, 13W, 20W & 60W
5	GR	Sealsafe IP20. Body sheet steel painted, Battery 12V / 6.5 Ah sealed lead acid type.		Emergency Light The EMERGENCY LIGHT, lighting luminaire for lamps 6W
6	RA26B	Sealsafe IP44. Aluminum ring, Reflector made of high quality aluminium, surface is anodic electrochemical, with pure aluminum		Down Light The RA26B, a Recessed luminaire lighting for lamps 18W & 26W
7	RS	Sealsafe IP23. Opal polycarbonate diffuser clipped onto epoxy coated galvanised steel base.		Round Light The Round Surface luminaire for lamps 9W, 18W, 60W & 75W
8	AMR	IP20 Class 1. High brightness anodized aluminium louver. V reflectors with a mirror finish provide high lighting efficiency.		Recessed Fluorescent The Recessed Fluorescent luminaire for fluorescent lamps 2X18W, 2X36W, 2x58W, 4x18W, 4x36W
9	ALRS	IP65 Class 1. Front lens made of tempered "SECURIT" clear glass. High quality specular finish anodized and non iridescent aluminium louver.		Recessed Fluorescent The Recessed Fluorescent luminaire for fluorescent lamps 2X18W, 2X36W, 2x58W, 3x18W, 3x36W, 4x18W, 4x36W
